Applicant's election with traverse of Group II in the reply filed on 10/24/2005 is acknowledged. The traversal is on the ground(s) that there is no burden on the Examiner to search both groups. This is not found persuasive because the search for a clip is outside the Examiner's area of expertise in class 198.

The requirement is still deemed proper and is therefore made FINAL.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

Claim 26 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 26 is incomplete.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 15, 17, 23 and 27-29 are rejected under 35 U.S.C. 102(b) as being anticipated by McCarthy (U.S. Patent 2,031,054).

McCarthy shows clamping together two conveyor sections 10 along at least two points by latching a clamping means 17 thru a recess in the sections which have been slid together. Spring 18 serves as a resilient connector.

Re claim 17, the indexing recesses thru which clamping means 17 passes are located across from one another.

Re claim 27, the clamp 17 is of the spring-type.

Re claim 28, there is a round shape to the clamp.

Re claim 29, the points are across from one another.

Claims 16, 24 and 25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
